

Successful with AutoForm!

AutoForm Engineering is a global software company that develops and markets high-end software for die engineering and simulation to the automotive industry. AutoForm software has been successfully used by all of the Top 20 global automotive OEMs and hundreds of suppliers of stamping parts and tooling equipment. The software is being used for die engineering and sheet metal forming simulation, to carry out feasibility studies, generate tooling concepts and optimize processes. AutoForm has been honored with several international awards in recognition of the company's innovative strengths.

Based in Switzerland and with more than 360 employees worldwide, AutoForm is growing internationally, with subsidiaries in Germany, The Netherlands, France, Spain, Italy, USA, Mexico, Brazil, India, China, Japan and Korea.

For our **Software Development Department** in **Zurich** we are looking for an

Intern or Student with Bachelor's- or Master's Thesis or Diploma (m/f)
